

AZGPS/CALVRS Google Earth Network Link Instructions

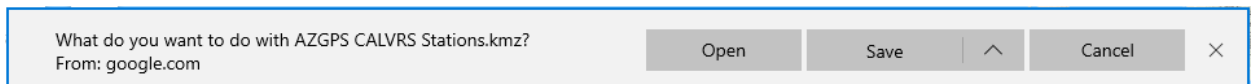

1. Navigate to <http://www.azgps.net>
2. Click on the  icon to open the map full screen.
3. With Map Full Screen the Map Legend should open to the left select the  icon.
4. From the Map Legend Menu Choose Download KML

Export to KML/KMZ

Entire map ▾

- Keep data up to date with network link KML (only usable online).
 Export as KML instead of KMZ. Does not support all icons.

5. The Download KML Dialog Bog will open. CANCEL OK
6. Check the Box that says “Keep data up to date with network link KML and choose OK
7. You should now see a Windows Dialog Box...

- 8.
9. Choose Open to launch Google Earth Now or Save to open later.
10. Now instead of searching and downloading a new map you can refresh your network link and always have the most up to date map available in Google Earth.
- 11.
